About

Dr. Ilay Maden BDS, PhD

Dr. Ilay Maden is a partner at a fully laser and digital private dentistry practice in London, England. His practice is limited to periodontology and implantology while teaching dentists in laser dentistry for well over a decade.

Dr. Maden studied dentistry and completed his Ph.D. for periodontology at the University of Istanbul. He has received his Master of Science degree for Lasers in Dentistry from Aachen University, Germany. Since then, he has been teaching laser dentistry all around the world. He has held hundreds of theoretical and hands-on courses and has been a speaker at a number of international congresses on diode, Nd:Yag and Erbium lasers in dentistry in over 20 countries in Europe, Asia, and North America.

His work has been published internationally in the Journal of Periodontology, the International Journal of Medical Sciences, The International Magazine of Laser Dentistry, the Journal of Laser and Health Academy, Cosmetic Dentistry, and Hindawi Publishing Corporation.

Dr. Maden is a board member of the World Federation for Laser Dentistry, Lasers in Medical Sciences, Lasers in Dental Sciences, Journal of Laser and Health Academy, Laser—International magazine of laser dentistry, and Global Periodontal Laser User Society.

Dr. Maden is a reviewer for the Journal of California Dental Association and a member of European Federation of Periodontology, European Academy of Osseointegration, Turkish Society of Periodontology, and British Dental Association.

Dr. Maden is the representative of Aachen Dental Laser Centre, Aachen University, Germany, and the World Federation for Laser Dentistry in the United Kingdom. He is also an Adjunct Faculty Member, thesis co-advisor, and examiner at AALZ, an expert lecturer for Laser and Health Academy, a lecturer for the German Association of Oral Implantology, Dental Online College by Deutscher Arzte-Verlag and a training instructor for international Continuing Education Centre for Dental Implants; IFZI, Nurnberg, Germany.
