

DR. LOU GRAHAM is an internationally recognized lecturer extensively involved in continuing education for dental professionals. His lectures focus on incorporating current clinical advancements through “conservative dentistry.” He emphasizes the same concepts he practices: dental health diagnosis; treatment plans for medically compromised patients; conservative treatment; cosmetic dentistry; and customized approaches to periodontal care, implants and laser dentistry.

Dr. Graham is a published author in many leading national and international dental journals. He is a member of the American Dental Association, American Academy of Cosmetic Dentistry, Academy of General Dentistry, Chicago Dental Society and Illinois Dental Association.

Dr. Graham is a graduate of Emory Dental School. He is the former Dental Director of the University of Chicago's Department of Dentistry.

He enjoys providing dental care at his multi-specialty private practice group, University Dental Professionals, in Chicago, IL – Hyde Park.

PRESENTATION:

A Sound Recession-Proof Restorative/Hygiene Practice

The obstacles and challenges we face day after day continue to change so fast in our profession. This course will dive deep into how diagnostics have changed and why you must advance your practice with far greater treatment plan acceptance. From the new patient exam to hygiene re-care exams, come see how to create new protocols and far superior outcomes. This course is recommended for the entire team. Doctors, bring your team! Staff, bring your doctors!

HIGHLIGHTS:

Why FMX's are a thing of the past; why bite-wings for your younger patients really aren't necessary; and so many more ways to customize your diagnostics for your office.

The NEW Patient Exam - an OMG change that everyone can do!

Redesigning the entire hygiene "one hour" to maximize treatment, diagnostics, and communication.

Maximizing hygiene outcomes with lasers and oxygenation (or, it's not about Star Trek; it's about PERIO!)

OBJECTIVES:

To present the latest approaches to running and growing your team and your business;

To update the team on the latest diagnostic approaches for the general dental practice;

To present the latest methodologies to compliment hygiene growth and understand how adjunctive therapies are bringing us far more success in treatment.
