## **DR. MARK OLESEN**

Dr. Mark Olesen received his dental degree from UBC in 1988. He practiced general dentistry for 6 years and then in 1996 completed the graduate program in endodontics at the University of Southern California. He has practiced endodontics in North Vancouver for more than 20 years.

## **PRESENTATION:**

### ***Endodontic Complications, Mistakes, and Failures Lecture***

The usual endo topics of diagnosis, anesthesia, canal finding, negotiation, shaping, irrigation, and obturation will be covered. But instead of 'how to', this lecture will concentrate on cases that did not go as planned.

Tips will be given to help to avoid problems. Many products will be discussed.

This lecture is not sponsored. The speaker has no affiliation with any dental supply company.
