

VDDS ON DEMAND SERIES ACCESS

VDDS 2023-24 Member

If you are a Gold, Silver, Bronze, AS, RA, Life or Student VDDS Member, you can access On Demand Recordings that are available to Members.

If you are a Life Member, or whether or not you registered your membership online or if we processed your payment manually, **you have a VDDS profile and account in a password protected area of our website.** You will need to log into your account and profile in order to access VDDS On-Demand recordings.

If you have never accessed your online account and don't know how to access your account, go to [lost your password](#) and put in your email address to have a temporary password sent to you. If you have used a different email to what's on file, please email robyn@vdds.com with your updated email address and to have a temporary password sent to you.

Once you have logged in and have access to your VDDS online account, click on “**Edit My Profile**”. **Make sure that your profile includes your First and Last Name and College Registration No. These fields will be important for generating the correct information for Completion Certificates to submit to the College (if webinar is eligible for CE).**

Scroll down to **Course Info**, where you will find **Access Links** (in blue) to courses that are available to you. Click on the applicable link that will take you to the course page. Scroll down to Course Content and click on the title, which will take you to the Lesson page containing the video. Each Lesson includes a **Video** and optional **Quiz** (only if CE eligible) below. If there is no Quiz, that means that the recording is **not** eligible for CE credit. If applicable, once you pass the Quiz, you can download a **Certificate**. To get back to your profile page with CE Links, click **Billing Info** at the top right, **Your Account, Edit Profile**.
